### And What Have You

By BOB CRAIG

Shortages or inflation — that seems to be the choice facing this nation at the present time. And with the normal bureaucratic bungling that our government seems to be so adept, we probably will end up with both.

Already we are getting predictions of shortages ahead in foods and other agriculture products as a result of President Nixon's current 60-day price freeze. When a product won't bring as much as it costs to produce, then people just quit producing.

Egg and broiler producers are cutting back production because of cost of feed and other expenses. There is talk of a pending milk shortage because of the same problems.

With raw products and wages outside the price freeze it is not hard to see that we are going to be faced with major problems in the weeks and months ahead. The big question still unanswered is — where do we go from here? What is the next step?

One does not have to study the problem very long to see that it will take someone with more wisdom than Solomon to straighten this mess out. Inflation cannot just go unchecked but at the same time how do you freeze the economy without hurting major segments of it. At what point in time could you say that prices and wages could be rolled back to this level and no one would be hurt.

Because of government bungling and many other factors that very few can understand, the American farm products have failed to keep pace with the American economy, and now that they have started to move into line they are being checked by the freeze.

Must seem very strange indeed to the average farmer to find that just when his prices start going up to match the prices he has been paying for everything else, that this is inflationary and must be brought to a halt.

And during all this time that the American people are trying to figure out how to survive this battle of shortages, inflation and freezes, our Congress is hard at work trying to come up with a 20 percent increase in the minimum wage and there is talk of raising the price of postage from 8 to 10 cents.

And, if you think that inflation is just a problem for us here in America you are wrong. While our rate of inflation has been about 5 percent for the past 12 months, the pace has been greater in other nations — 13 percent for Israel, 8 percent in Britain and Italy and 7 percent in France and West Germany.

Prices may scare you when you go to the grocery store but check the prices of peaches in Japan: first peaches of the season went on sale in Tokyo at the start of June. . . \$15 for a box of 12, wholesale. Retail price, \$2.25 to \$2.65 per peach.

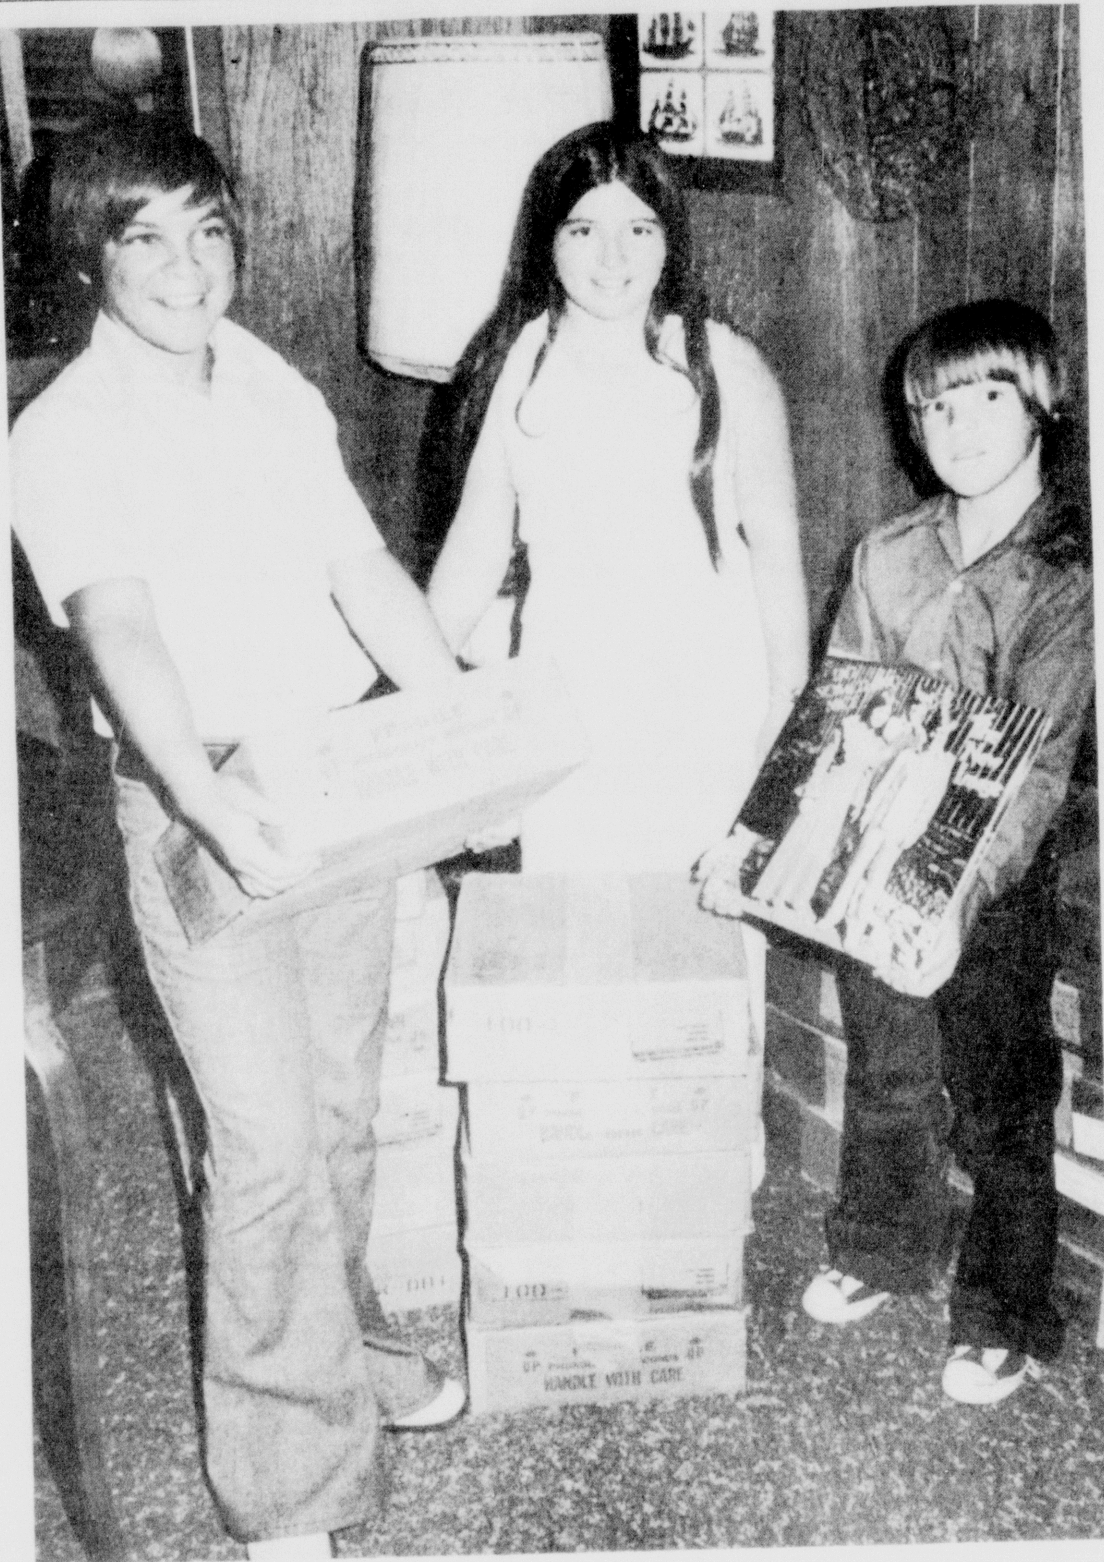

Because it is of concern to all of the people of Jones County we are reprinting a part of Roy Craig's column in the Stamford American from last week.

Two more old criminal cases were tried in Jones County court Monday, bringing to three the total which had been prosecuted this session by assistants of the district attorney's office.

These three cases are only a drop in the bucket of the grand total criminal complaints which are pending. One of the cases heard Monday would have been three years old this fall. This surely can not be held to be in the spirit of the constitutional provision which says every man is entitled to a speedy trial.

A. J. Smith, the county attorney, helps to prepare the cases but because of his health, cannot proceed

**RECORD SHIPMENT ARRIVES** — Terry, Sheri and Gary Mink, singing together as "The New Image" are checking the recent shipment of their first album "Do Something Nice." The youngsters, children of Mr. and Mrs. Lynn Mink, 1037 Northwest Third, have been singing as a group at many churches, schools and civic organizations since 1968.

## THE NEW IMAGE—

### Local Singing Group Releasing First Record

A young local singing group that started singing around the piano with their mother are releasing their first album.

"The New Image" which includes Terry, Sheri and Gary Mink, children of Mr. and Mrs. Lynn Mink, recorded "Do Something Nice" a collection of their favorite inspirational selections. The stereo album includes 10 selections and is now being distributed through several outlets.

The family went to Nashville April 24-25 for the recording session at Superior Sound Studios. Background music was provided by studio musicians with Joe Moscheo as the producer. One selection, "Join to Rejoice," features a strong piano accompaniment which is played by Mrs. Mink.

The Mink children have grown up with music in the home. Their father is music education director of First Baptist Church here and their mother teaches piano and

organ. At the age of five the children were placed at the piano and were given the basic fundamentals, Mrs. Mink said.

The youngsters began singing as a group in 1968 in Edinburg and adopted the name of "The New Image" in 1969 in Waco where their father was music director at the North Waco Baptist Church.

The Minks moved here in August, 1971.

Terry, 15, was born Feb. 27, 1959, in Vicenza, Italy, where his father was assigned with the U. S. Army. Since moving to Hamlin he has been active in sports, participating in football, basketball and track. He plans to add band to his schedule as a freshman in the fall. He plays the electric guitar in the group's special appearances.

Sheri was born July 5, 1960, in Ft. Worth and will celebrate her 13th birthday next week. She plays the drum with the group and is also a member of the junior high school band. She is active in Acteens and other youth activities at First Baptist Church and plays the piano and organ. She will be in the seventh grade in the fall.

Gary was born Sept. 11, 1962, while the family was living in Irving. He will be in the fifth grade and is active in the Little League baseball program as a member of the Cubs in the Farm Club. He plays piano. With the group, he plays bass guitar.

"Before becoming 'The New Image,' we began singing around the piano with our mother," the youngsters said. "As we progressed, God began to use us to proclaim the gospel of Jesus Christ to all ages."

"As The New Image, it has been our privilege to sing our testimony for Jesus in many churches, schools, and civic

organizations in many different states telling to all that Jesus Christ is the only true and living way," they state.

The photos for the record jacket were taken locally by Tim Jones in the patio setting at the Jones' home. The jacket design was done by Mr. Mink.

The records are being distributed by Love Records, P. O. Box 135, Hamlin. They are also available at First Baptist Church, the Hamlin Herald and at the Mink home, 1037 Northwest Third Street.

## 'God and Country' Service Planned At Park Sunday

The membership of First Baptist Church will hold the third annual "God and Country" service Sunday, July 1, in Hamlin City Park at 7:15 p.m.

The service is held annually the Sunday nearest to but not after July 4. This will be the first year to be planned outdoors. In case of bad weather, the service will be moved to the church auditorium.

The public is invited to attend the special service. Members are being asked to bring a freezer of ice cream or a cake, if they desire, for a fellowship

period following the service. Also those with lawn chairs are encouraged to bring them. Those who wish to sit on the ground are asked to bring blankets or quilts. Extra chairs will be provided by the church for visitors.

Special music under the direction of Lynn Mink will be presented by the Sound of Celebration and the adult choir.

The message will be presented by the pastor, the Rev. Howard Jones.

The nursery will be open at 7 p.m. at the church.

The paper drive will begin at 9 a.m. Friday and continue throughout most of the day. Bill Grissom, director of the summer program, said "We would like to urge everyone to

help with this. Each one can help by bundling up old papers and placing them along the curbs to be picked up. "Anyone with large amounts of paper should call the Board of Community Development office (576-3501) to have it picked up."

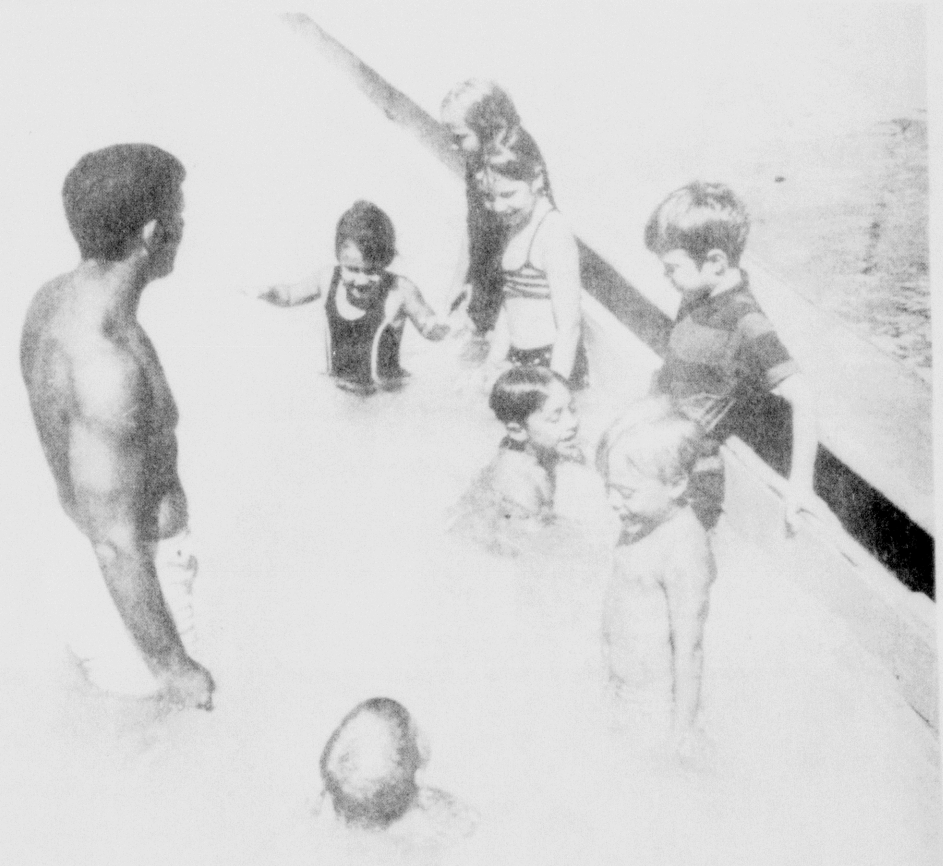

All participants in the Recreation Program and their parents are invited to attend the picnic in City Park at 7 p.m. There will be assorted games and fun for everyone, Grissom said.

## EGGS A BARGAIN

Yes eggs are a bargain, because at the present the price of eggs are frozen at a price much less than the cost of producing them on the high feed prices.

One dozen Large Eggs weigh one and one half pound at 69 cents per dozen — that is only 46 cents per pound for a nutritious high protein food. Two eggs contain fourteen grams of high protein and at 69 cents would be less than twelve cents. Two boiled eggs for a growing youngster cost less than one soft drink.

The current freeze caught eggs at less than production cost so many are selling their hens.

## FROM THE FILES . . .

### FIFTY YEARS AGO (June 29, 1923)

As was well known, last Monday was a big trades day in Hamlin. It was a day of extra bargains in every store in town. The crowds were not as large as expected, due to the fact that there remained a lot of farm work to do and regardless of the savings offered in merchandise the farmer figured it economy to stay with his crops.

Don't forget the fact that on July the Fourth, the people of Hamlin, under the leadership of the Hamlin Literary Club are going to do special honor to those of our city and community who have reached the age of "citizenship" since the last Fourth, or who will be twenty-one years of age on or before November 30, of this year. A very interesting program will be presented at night in the Tabernacle. One of the interesting features of the program will be the address of Senator Joe Burdett of Eastland. He is a candidate for Governor of Texas and no doubt will meet all the requirements for the occasion here on the night of July the Fourth.

Hamlin Oil Millers retain their lead in the Tri-City League. They were put in a tie for first with Roby when Rotan beat them 9-4 last Friday at Rotan. Last Saturday the Millers beat Roby 1-0 when Don Gregory singled to score Ewell Mackey from first in the eighth inning. This put Hamlin back in first. Hamlin is to play Roby tonight (Thursday); Rotan here Saturday and Rotan there Tuesday.

The 24th Annual Conference of the American Cotton Congress will convene at the Sands Hotel in Midland at 9 a. m. Thursday, July 18. The Midland Chamber of Commerce Farm and Ranch Committee will be the co-sponsor.

Twenty-eight agricultural leaders, fertilizer dealers and farm leaders attended the first session of the Fertilizer Short Course in the County Agent's office on Thursday night, June 20, according to information from county agent, Kirby Clayton.

The Scrubs were downed by Roby last Saturday 5-1. Tuesday afternoon they had a practice game with the Rebels. The Rebels came from behind to win 3-2.

## And What Have You

—Continued from page one

with the cases through testimony. This has been true for too long. Smith is an attorney of unquestionable ability and carries out the duties of his office in every respect except trying cases where the defendant pleads not guilty and asks for a jury trial.

When this happens, that is, when a trial is asked, the cases have been dragging on and on. Smart defense attorneys know this and so advise their clients. When a case gets old, it is harder to get a conviction.

I don't know if Jones County is having to pay for the services of these young prosecutors or not but if they do, it surely is not fair to the taxpayers who already are paying for this service in the salary of the county attorney.

If I am informed correctly, should there be no person in the county who would accept the job of county attorney, then the county could contract for this service. It is my belief, with all due respects to Smith who I count as a friend, that he should take sick leave and the county should contract for this work to be done on a month to month basis.

A. J., as he is known to his friends, is sick. He needs surgery but just can't make up his mind to have the work done. If he knew his work as county attorney would be taken care of, perhaps he would go ahead and get the surgery over with. For his sake and for the county's as a whole, I hope he does so.

## Neinda Philosopher Has Plans to Increase Tax Revenues for Everybody

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One turns his thoughts this week once more to the plight of the cities.

Dear editor:

One of the pleasures of living on this Johnson grass farm out here, aside from the current prospect that the fuel shortage may keep me from doing all the plowing I might not otherwise be able to get out of doing, is studying the plight of the big cities.

As everybody knows, cities just don't have enough money to operate on and are constantly hunting for new sources of tax revenue.

One of the new sources now being proposed is a commuter tax. Cities say look, all those people living outside our limits are coming in every day to work, wearing out our streets, using up our electricity and water, being protected by our police, enjoying all our other services, getting paid here and

then going back to their suburban homes to spend it. They ought to be taxed for the privilege.

This makes sense, and clearly the thing to do is to set up tax

### Food Prices Up All Over World

Rising food prices are a worldwide problem. A recent report by the Foreign Agricultural Service shows that food prices rose 243% in Chile last year alone.

In other countries, 1972 food prices were up 6.7% in Canada, 7.4% in the United Kingdom, 11.3% in Ireland, and 4.3% in the United States.

In Japan, where food prices are higher than those throughout most of the world, the increase was only 3.7%.

By mid-March of 1973, residents of Tokyo were paying \$3.57 for a pound of sirloin steak, \$1.67 a pound for broilers, \$1.68 a pound for butter, \$1.06 a dozen for eggs, \$1.70 for a head of lettuce, and \$1.10 for a pound of tomatoes.

booths on every road leading into town and charging every commuter say a dollar a day to get in.

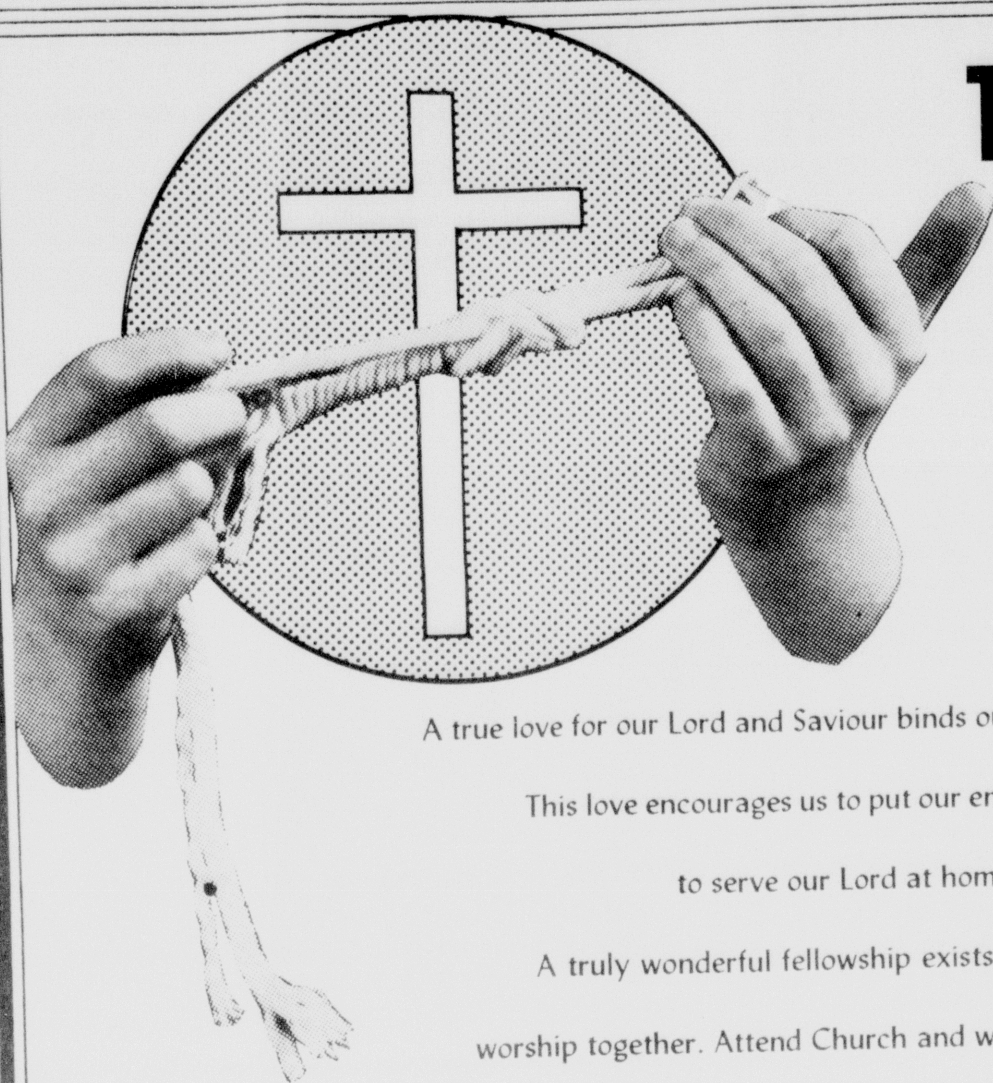

Now of course on the other hand a lot of city people, as soon as they work week in the crowded city is over, head for the country, so the thing for country people to do is to rent those tax booths on weekends and charge city people for leaving.

This way everybody makes money, coming and going.

I can't say which side would make the most, but that's beside the point, the only thing to do is try it out and let the chips fall where they may, although these days it's hard to let the chips fall where they may when nearly everybody is using a chain saw.

Yours faithfully,  
J.A.

P.S. I've just read that some eager beaver in Washington has assured farmers they'll get all the fuel they need to make a crop. Why can't Washington leave me alone?

## The TIE that binds

A true love for our Lord and Saviour binds our hearts in Christian love.

This love encourages us to put our energies and efforts together

to serve our Lord at home, at work, and at Church.

A truly wonderful fellowship exists for those who believe and worship together. Attend Church and worship with kindred minds.

"That I may come unto you with joy by the will of God,

and may with you be refreshed."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

# STATE Capital NEWS

By BILL BOYKIN

AUSTIN — Experts offer little hope for an early easing of the energy crisis, and Railroad Commission Chairman Jim Langdon warns a lot more oil and gas is being used than is being found.

A House committee studying the crisis heard a national authority's grim opinion that "there is no way out."

Dr. John McKetta, past chairman of the National Energy Policy Committee, said President Nixon should declare a national emergency, since it's too late for problem studies in the area.

Langdon told the same committee legislative efforts to cope with the problem will be frustrating because solutions must be sought at the national level.

Although the state regulatory agency has been permitting 100 percent production for more than a year, Langdon said Texas producers are still falling short of demand for oil by 400,000 barrels a day, or roughly 10 percent.

Atty. Gen. John Hill termed

the situation "extremely critical," and said no other matter should receive more attention today.

As the commission set the July oil allowable at 100 percent for the 16th straight month (with buyers seeking a record 3.8 million barrels a day), Langdon issues a new warning that only nine million barrels of oil a month are being added to Texas supplies while 105 million barrels are consumed in the same period.

"Unless this trend is reversed, the Texas oil and gas industry is in the process of self-liquidation," said Langdon.

Texas crude oil stocks as of June 8 were 94.7 million barrels, a decline of 7.2 million from 1972.

Langdon asked for reports at the July commission meeting on the amount of oil companies discovered in 1972, and "somewhere along the line," he said, he will want to know "what it will take to find more" — and whether the industry will really be "able to stay in business."

**FUTURE HIGHWAY NEEDS**—Mass transit needs should be financed from its own funds, not from highway funds, Roy D. Chapin Jr., Board Chairman of American Motors Corporation, told Texas Good Roads Association members and the Texas Highway Users Conference here last week.

"Highway construction and maintenance needs during the next 20 years will be \$600,000,000,000 in the United States," he explained. "Mass transit needs will total \$50,000,000,000 for rail construction and development and \$13,000,000,000 for bus transportation."

"Highways are still the basic answers for urban transportation needs. The Department of Transportation says by 1990 that 92 percent of transportation will be on roads and streets — with only eight percent on bus and railroad facilities."

Chapin, who is chairman of the board of the National Highway Users Federation, spoke to a partisan audience, but his statistics impressed neutral observers about the need for political unity in the current struggle between eastern states and the rest of the nation for current highway user funds.

"HUD says that population density will continue to drop in urban areas," Chapin concluded. "Travel patterns will be from suburban home to suburban jobs. Buses and car pools can start lowering congestion — but highways are still important to those methods of transportation."

He spoke against "crisis" legislation because of the "current misunderstanding and misinformation on the so-called energy crisis. Some restrictive actions may be taken in the name of crisis, increased tax on gas, excise taxes and personal property taxes on automobiles," Chapin added.

**AMENDMENTS PROPOSED**—Nine more proposed constitutional amend-

ments will appear on the November 6 general election ballot — just a couple of months before the Legislature sits as a constitutional convention.

The amendments for the November ballot are:

**SJR 8** — proposing a \$15,000 a year salary for legislators and annual legislative sessions.

**SJR 13** — extending the \$3,000 property tax exemption to homesteads of unmarried adults.

**SJR 29** — authorizing cities to levy ad valorem taxes sufficient to pay the principle and interest on general obligation bonds.

**HJR 6** — providing an additional \$100 million for the Veterans Land Program.

**SJR 1** — establishing new requirements for conservation and reclamation districts.

**SJR 25** — exempting water supply cooperative property from taxes.

**SJR 26** — giving district courts concurrently with county courts general jurisdiction of probate courts.

**SJR 12** — providing for financing of seawalls by bonds.

**HJR 7** — similar to SJR 13, plus exemption of property from forced sale.

**AG OPINIONS**—University authorities and courts must determine if student service fees are used properly to benefit students, Attorney General Hill held.

In other recent opinions, Hill concluded:

A new law designed to prevent conflicts of interest among water control district directors is probably un-

constitutional, but part of it is valid and will stand court test.

The legislature may add as a condition to tax exemption that a corporation have a current exemption from the federal income tax.

A proposal to grant the 43rd district court of Parker County overall supervision of the dockets of the Parker County court and allow it to assign to the county bench a suit filed in district court would be unconstitutional.

**RIGHTS BILL SIGNED**—Young Texans 18-20 will get full majority rights under new legislation which takes effect August 27.

Governor Briscoe signed the bill, in spite of speculation he would veto it.

It permits the 18-20-year-olds

to "enjoy all the privileges and responsibilities of adult citizenship," according to Briscoe's statement.

Among adult privileges which the new youth group will be able to indulge in is purchase, consumption and sale of alcoholic beverages.

Other bills signed near the deadline for approval or veto included family code revision, free kindergarten for all five-year-olds, primary election proceedings and financing for 1974 and bail bond reform.

Altogether, Briscoe signed or allowed to become law without signature 659 bills passed by the Legislature this year and vetoed 29.

**SHORTS SHORTS**—U. S. Department of Labor has awarded Texas a \$1.4

million grant for an 18-month manpower program under the Criminal Justice Council.

Outcries for a special legislative session on public school finance increased during a House education committee. Texas will receive \$3,562,143 in additional grants for 16 Texas school districts participating in an emergency aid program to prevent minority group isolation.

Former Lubbock Mayor Jim Granberry, a Republican, is the early-bird candidate for governor, although former Houston Sen. Hank Grover has made clear he will run too.

Former Secretary of State Bob Bullock jumped into the 1974 Democratic primary races first — as a candidate for state comptroller.

## No fifths this Fourth.

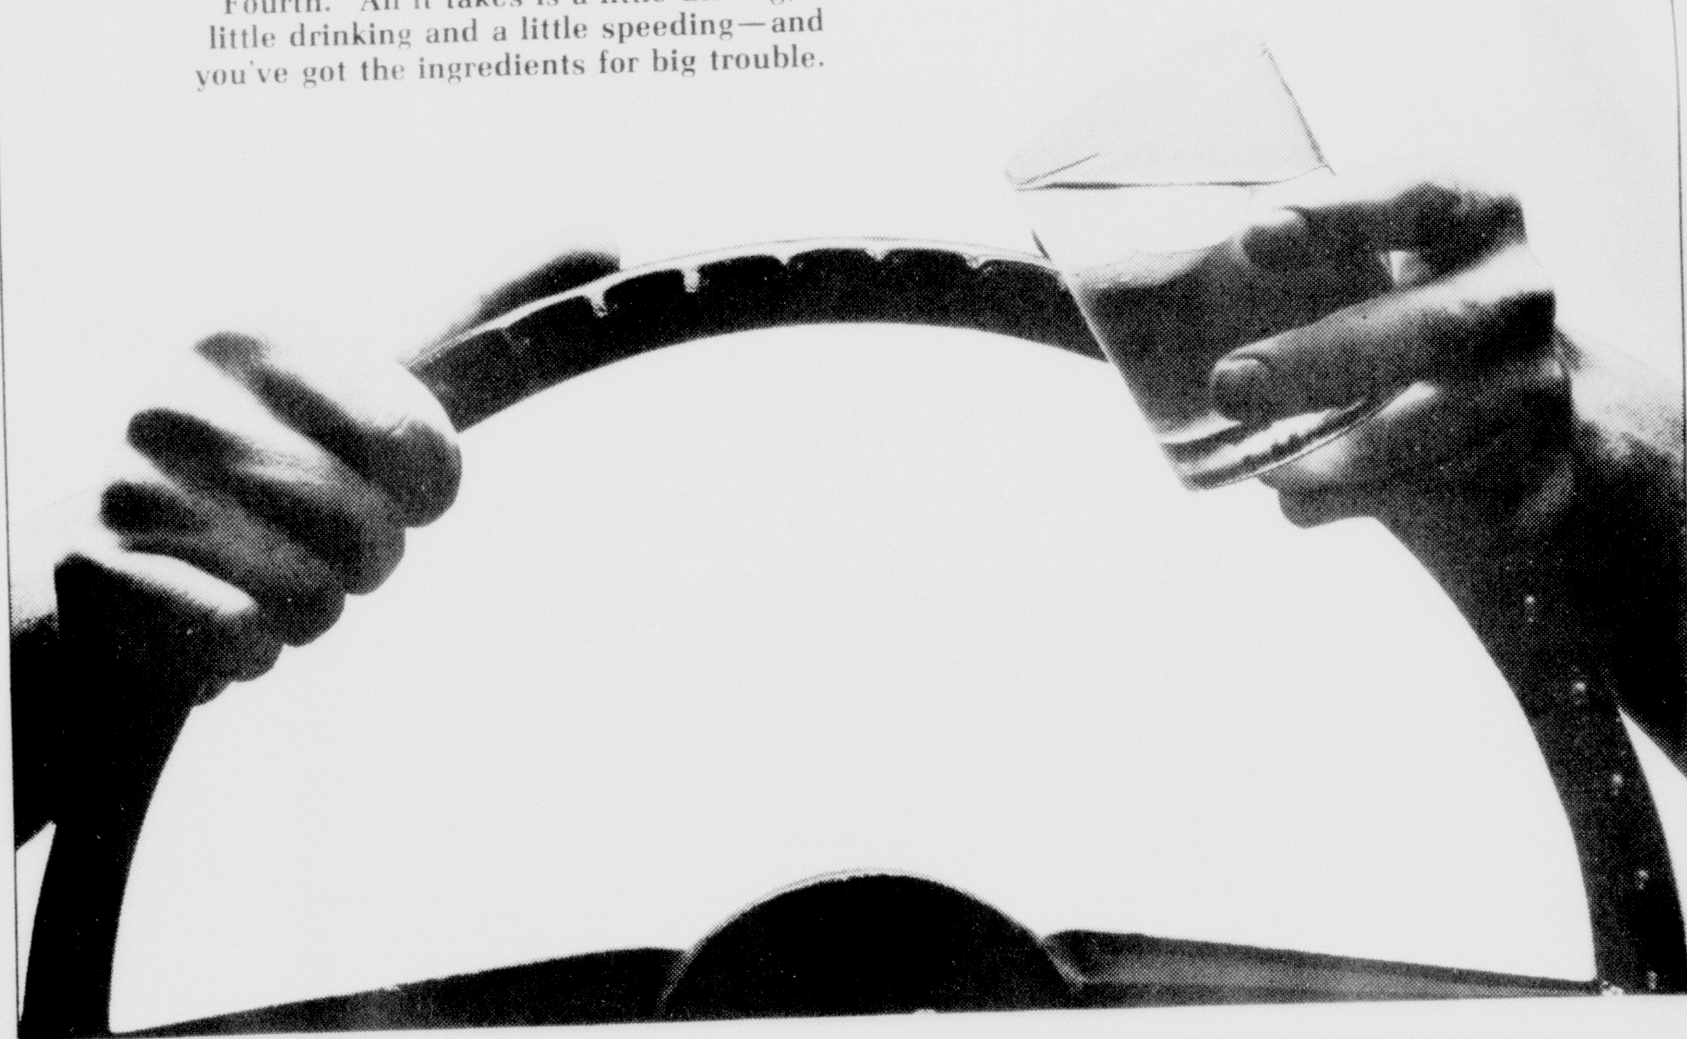

There used to be a saying at Fourth of July picnics that fireworks and fire-water don't mix. Well, neighborhood fireworks are pretty much a thing of the past. So this year let's keep in mind that driving, drinking and speeding don't mix either.

That's what we mean by "No fifths this Fourth." All it takes is a little driving, a little drinking and a little speeding—and you've got the ingredients for big trouble.

This Fourth if you want to drink, get somebody else to drive. And take your time. That's **DRIVING FRIENDLY**.

IS THIS A HOSPITAL? NO. This is a counseling and testing center—no one lives at the Clinic. HAVE OTHER CLINICS BEEN SUCCESSFUL? Clinics in other counties have been so successful in preventing hospitalization that the total cost to the State for mental illness has been reduced by 40-50 percent.

WHERE WILL THE CLINIC BE LOCATED? This will be decided by a citizen's committee in consultation with the Big Spring State Hospital. Wherever the Clinic is located its services will be available to all of Jones County.

### Scientists Ponder Bees' Dislike Of Cotton Nectar

What do bees have against cotton blossoms? That's what scientists at the University of Arizona are trying to find out.

And the reason they want to know is a good one: if bees would do the pollinating, hybrid cotton would be commercially feasible and might result in yield increases up to 25%.

When confined in cages with cotton blossoms, the bees will almost starve before complying with attempts to get them to cross-pollinate and aid in hybrid seed production.

Already, it has been learned that bees swarm to some flowers and scorn others because of the presence or absence in the nectar of 13 basic sugars. Some sugars are actually toxic to bees, and these may exist in cotton nectar, scientists say.

She is the former Ima B. Brown, a native of Sylvester. Her husband is a retired oil field worker. They have a married daughter.

Mrs. Absher, the former Faith Simpson, is a 1954 graduate of Hamlin High School and attended Baylor University. She received her bachelor degree from Hardin-Simmons University in 1965. Her eight years of teaching have been in the first, second, third and fourth grades. She has taught the third grade for the past six years.

Her husband is administrator of Hamlin Memorial Hospital and owner of Style Cleaners. They have three children, Lisa, 15, Pamela, 14 and Bill, 4.

# NEWS FROM ... Sylvester

By MRS. R. M. BABB

It is a lovely summer morning. Did you realize that summer is here and before we know it, it will be winter. Where is the time going?

Everyone is enjoying a few days away from home but be careful you might find fuel hard to find, especially on Sundays.

Our sympathy to the family of Mrs. Jack (Ila) Farmer who died last week in a car wreck just outside Roby city limits. The family lived many years in the Newman Community, then in Sylvester before moving to Roby.

The Vacation Bible School held their Commencement on Sunday night in the Baptist Church. Following the program everyone enjoyed homemade ice cream and cake.

Mr. and Mrs. Don Campbell have started their new house just outside town on the curve of 1085 toward Roby. Wish they could have built in town.

Neal Tankersley of Ft. Worth is spending the summer with Mr. Ernest Kiser.

Melissa Hardwick spent last Tuesday with her parents, Mr. and Mrs. Chub Hardwick. She is living in Abilene.

Mr. and Mrs. Joe Muhle and Korte of Munday visited in the R. M. Babb home on Saturday.

My report is that Pearl Johnson has been moved to Hamlin hospital and is slowly improving.

Mr. and Mrs. Jerry Prather, Eric and Ricky, of Sweetwater visited in the Buford Brown home on Sunday.

Mrs. Jonah Self has had three of her grandchildren here visiting. If Jonah sees this they are his grandchildren too!

Mr. and Mrs. Buster Lambert visited in the Fisher Co. Nursing Home Sunday afternoon.

Guests in the Raymond Kiser home this week is Mr. and Mrs. Winston Adcock and family of San Antonio.

Mrs. Milo Gray is spending a week with her Mother and then another week with her daughter in Ft. Worth. Hope she feels better when she returns.

# NEWS FROM ... Old Glory

Supt. and Mrs. Dalton Gill and Mitchell were honored last Sunday evening after church with a farewell ice cream supper. The Gills are in the process of making a short move from Old Glory to Aspermont. He will be superintendent of schools there after July 1. Since this is still within our county we hope to continue seeing them around.

The new superintendent of schools at Old Glory will be Tom Alvis of Abilene, and we will be welcoming him and his family to Old Glory soon.

Visitors in the home of Mr. and Mrs. Charlie Letz over the weekend who came to honor Mr. Letz on his 75th birthday included Mr. and Mrs. O. D. Vanderworth of Arizona, Mr. and Mrs. Roger Letz and Kathy Lu of Fort Worth, Mr. and Mrs. Jerry Callicoate and Jill of Midland, Mr. and Mrs. Thomas Letz, Brian and Lori of Levelland, and Mr. and Mrs. Michael Vanderworth and son of Wichita Falls.

Mr. and Mrs. Thomas Letz and children spent some time with her parents, Mr. and Mrs. C. T. Pierce, the O. D. Vanderworth's also visited his father, Mrs. Oscar Vanderworth.

Visitors here at the Church of Christ Sunday morning included the Ancil McBroom family of Brady.

We are glad to report that Mrs. B. A. Erdman is back at home after being a patient in the Stamford Hospital last week.

The Old Glory Homecoming, held every three years, will be taking place this summer. Anyone having friends or relatives who have moved since
